

# The Helen Lamp

The first plug and play LED replacement for CFLs.

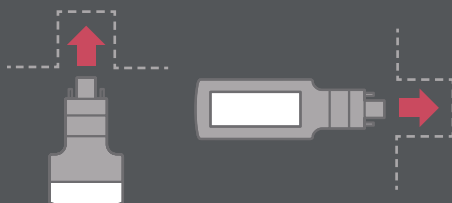

These modest beauties tuck away quietly in recessed fixtures,  
but surprise everyone with beautiful natural light and huge savings.

## Plug and play

Lunera's BallastLED technology allows you to leverage existing fixtures. Just plug the lamp into a 4-pin or 2-pin socket. No need to bypass the ballast. The 4-pin Helen Lamp is now fully compatible with enclosed fixtures.

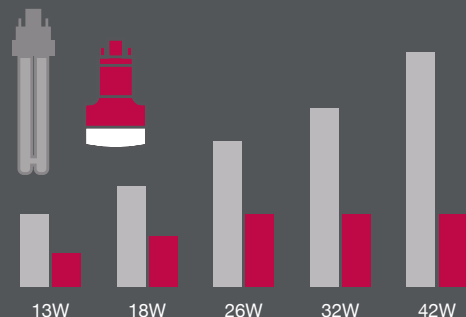

4-pin and 2-pin options available for vertical and horizontal configurations.

## Big energy savings

Enjoy 50%-70% energy savings compared with CFLs. Plus, the 4-pin Helen Lamp is compatible with dimming controls, which enables even more energy savings.

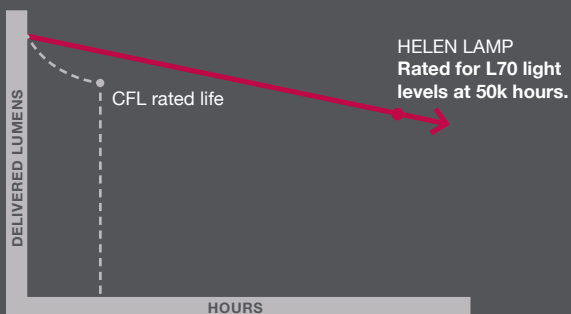

**\*For more information about dimming capabilities, please contact Lunera.**

## Long life, low maintenance

The Helen Lamp lasts for more than 50,000 hours. That's 5x longer than CFLs, meaning far fewer service cycles and far fewer replacement lamps.

### Helen Lamp Highlights

Input Voltage	Driven by CFL ballast	Color Temp	2700K, 3000K, 3500K, 4000K
Power	13W	Life	50,000 hours life (L70)
