

The first plug and play LED replacement for CFLs.

These modest beauties tuck away quietly in recessed fixtures, but surprise everyone with beautiful natural light and huge savings.

The 5W Helen Lamp GX23 delivers up to 70% power savings compared to 13W CFLs while eliminating up to 5 replacement maintenance cycles.

This lamp extends the successful Helen Lamp family to GX23 series sockets. While continuing with the retrofit-simplicity of ballast-driven plug-and-play through Lunera's BallastLED™ technology, the Helen Lamp GX23 can also be directly 120V/277V line driven.

Helen Lamp GX23 Highlights

Input Voltage	Driven by CFL ballast or 120V/277V Line Driven	Color Temp	2700K, 3000K, 3500K, 4000K
